### **Theme: Innovation from Discovery to Application**

*Program - Final*

Henkel Award for Outstanding Graduate Research in Polymer Chemistry Honoring Jessica Kramer (Joint POLY/PMSE:)

*Warren Ford*

General Topics: New Synthesis and Characterization of Polymers

*Dana Garcia*

Henry A. Hill Centennial Symposium: Innovation in Polymer Science

*Malika Jeffries-EL, Lashanda Korley, and Gregory Tew*

Industrial Innovations in Polymer Chemistry

*Karl Haider, Michael Hunt, Corinne Lipscomb*

Ionic Liquids in Polymer Design: from Energy to Health

*Yossef Elabd, Timothy E.Long, and Jiayin Yuan*

Multi-component and sequential reactions in polymer science: Efficient synthesis of structural diverse polymers

*Patrick Theato and Michael Meier*

Protein-Like Structure and Activity in Synthetic Systems

## 2015 Fall Meeting

*Erik Berda, Johan Foster, and Yoan Simon*

Ring Opening Polymerization

Silicones VII

*Steve Clarson and Joseph Mabry*

Surface Modification of Polymeric Materials

*Christopher J. Wohl and Kenneth J. Wynne*

Value of Basic Research in Solving Industrial Polymer Problems

*R. Moore*

Value of Basic Research to Industrial Polymer Science – A Senior Chemist's Perspective

*Robert Moore*

Overburger Award in Honor of Krystoff Matyjasewski

*Richard Laine*

Mark Young Scholars Award Symposium in Honor of Bradley Olsen

*Paula Hammond*

Mark Scholars Award Symposium in Honor of Stuart Rowan

*Jeff Pyun*

The Herman Mark Award Symposium in Honor of Timothy Lodge
